

Timeline and conditions of the reusable bag that transported organic apples to City Hall on February 15, 2012

3 packets of meat (chicken, pork, and beef) were purchased Sunday, February 12th at 6:00 p.m. from the Albertsons on Pico Ave. The meat was placed into a “reusable” bag.

The packages were punctured and the liquids (blood and other fluids from the meats) were allowed to leak into the bag.

The “reusable” bag was placed into the trunk of my car along with a damp beach towel. Temperatures inside the trunk reached 87 degrees.
